BÜLENT CİHANTIMUR

*Aesthetics Plastic Surgeon
Bülent Cihantimur MD.*

Bülent Cihantimur MD.

Bülent Cihantimur was born in 1970, Kars. He graduated from Istanbul University Çapa Medical School. He's been Aesthetics Plastic Surgery Attending by specializing in Aesthetics Plastic Surgery Residency at Uludağ University Medical School. After he worked at St. Lawrence Hospital in England for a while, he has founded Estetik International in 1999. There are eight techniques developed by Cihantimur.

1. *Non-operative treatment of Trigger finger*
2. *Cihantimur Fat Transfer System*
3. *Prominent Ear Aesthetics by Rope*
4. *Spider Web Aesthetics*
5. *Genital Beautification*
6. *Simple Nose Aesthetics*
7. *Organic Hair Transplantation*
8. *Leg Beautification*

Non-operative Treatment of Trigger Finger

This disease that leads to tripping in hand fingers and pain, by the technique developed Dr.Cihantimur can be treated with a needle non-operatively in 5 minutes. This technique was presented in international Congress, published as an article and shown as reference in many studies.

Cihantimur Fat Transfer

Cihantimur Fat Transfer system taken in part in literature and called with the last name of Bülent Cihantimur MD. is applied with a closed lipoid technique. Long-lasting, safe and most natural fat transfer are performed in body areas where fat tissue decreases volumetrically. In Cihantimur Fat Transfer System, the fat removed from body is transferred into other region of body by the specialized device without getting out. Therefore, fat cells are never exposed to air, many tools and they cannot wait outside of the body for a long time.

Prominent Ear Aesthetics by Rope

Prominent ear aesthetics by the rope is an extremely practical application that defective ear angle is fixed by using only medical ropes without having incision and cartilage slenderizing. Because of the shortness to return social life and recovery; it provides maximum comfort for those who have prominent ear problem.

**"Innovative, contemporary,
developer of 8 important
techniques with many
advantages that applied with
the most naive touch to the
individual's body, which took
part in the world of medical
literature"**

Spider Web Aesthetics

Spider Web Aesthetics is a non-operative rejuvenation operation that helps you prevent aging signs. Spider Web Aesthetics which name and patent right belong to Dr. Cihantimur is applied on every skin area, it does not affect social life, and it refreshes the skin day by day. At the end of placing the rope determined depending on the rate of skin aging under the skin like the spider web, it is a treatment type that helps body reproduce collagen and elastin. It can be applied on face area, buttocks, leg and internal parts of arms in particular and also genital area.

Genital Beautification

It is an operation that solves postpartum hormonal causes, vaginal abrasion developed depending on gravity, urinary incontinence and sexual dissatisfaction of women. In 2014, Bülent Cihantimur MD. has been rewarded Golden Bistoury with this technique.

Simple Nose Aesthetics

It is a technique that has no plaster and buffer and recovery is extremely short to remove the end of nose. Those who do not want radical change in their nose and are afraid of possible risks of classic nose surgeries can have this operation.

Organic Hair Transplantation

It is a hair transplantation technique performed with injection that is enriched with stem cells from patient's own fat without using chemicals. When this injection is injected into the area with no hair, great success is achieved in wound recovery, adhesion of follicle that is transplanted, hair loss and animation of hair. This technique that is first applied in Turkey and World, is developed by Bülent Cihantimur MD. in labs of Estetik International.

Leg Beautification

It is an operation that can be performed in those who have leg deformity aesthetically or have problem in fat rate. Surplus fat lyposucked and shapes by transferring into the one that needs it. Disproportion between lower or upper leg can be solved with this operation.

**“The success of Doctor B
has been awarded”**

His awards

In 2014, he was selected “Medical Man of the Year “and was rewarded “Golden Bistoury” given to the persons who made extraordinary contributions to aesthetics surgery in worldwide organization and also has been selected into “The Best 50 Plastic Surgeons” of World. Patient Guarantee

Your surgeon is covered by the ISAPS Insurance.

This is additional cover for remedial treatment that may be necessary following your surgery. It covers the most common conditions that require revision surgery. In the unlikely event that your surgeon (or an approved surgeon in your country of residence, if you travelled abroad for your surgery) diagnoses you with one of these conditions, then **the surgeon's insurance will** cover the costs and charges (up to a limit agreed with our insurers) for the corrective or remedial treatment by your surgeon or an approved ISAPS surgeon in your country of residence.

This guarantee is valid for two years from the date of your surgery (excluding the first 28 days).

Your surgeon has only been accepted for this insurance because they are a member of ISAPS. ISAPS have strict requirements for membership to ensure their surgeons have the highest standards of training and experience.

Visit www.isapsinsurance.com to see your surgeon's entry in their directory. If you have further questions about this insurance, please contact the ISAPS Insurance patient helpline on +44 (0)207374 4022. Or email team@isapsinsurance.com
